

## Secure, versatile, engaging – EMV payment without the compromise.

Inenco introduces the G7 family of EMV pay-at-pump terminals, offering stunning value and capability to meet your compliance needs, and to deliver consistent, engaging customer experiences unique to your business.

G7 is a fully integrated self-service solution for accepting EMV, magnetic stripe, contactless (including mobile phones), barcode reading and mobile wallet payments. The terminal range has been thoughtfully engineered to provide effortless retrofit options for all brands of pump.

Moreover, G7 provides an open platform through which retailers gain unprecedented flexibility to develop their own payment enabled applications and engage with their customers like never before.

## G7 Key Features:

- ▶ Full color touch screen (up to 12”).
- ▶ EMV chip and contactless as standard.
- ▶ Optional 2D barcode reader and printer modules.
- ▶ Extensive peripheral connectivity options.
- ▶ The very latest in payment security certifications.
- ▶ API for third party app development.
- ▶ Wide range of pump retrofit options.
- ▶ Supported by cloud-based terminal and media management features.

## G7 Key Benefits:

- ▶ Capitalize on your EMV investment.
- ▶ Be ready for contactless cards and mobile wallet.
- ▶ Bring the benefits of touch to the forecourt.
- ▶ Drive branding and promotion with larger screens and rich media environment.
- ▶ Take control by building your own applications.
- ▶ Keep customers engaged with updated content.
- ▶ Minimize maintenance through remote terminal management.
- ▶ Provide a consistent customer experience regardless of dispenser model.
